25L, Free Standing

Orebro is one of our smaller rubbish bins with a 25-liter capacity, making it a perfect choice for locations with limited space. The lid on the bin prevents litter from blowing out and makes it difficult for birds to perch on the edge. The standard color is black, but the product can also be offered in other colors. The Orebro litter bin adds a touch of elegance to any environment. Its stylish appearance enhances the overall ambience of public spaces while encouraging proper waste disposal. Constructed from high quality, corrosion resistant materials, it ensures long lasting performance, reducing the need for frequent maintenance. This variant is freestanding.

Recycled: Made from materials that have been processed and reused instead of discarded.

Recyclable: Can be collected, processed, and turned into new products instead of becoming waste.

Renewable: Comes from natural sources that can replenish over time such as sustainably harvested wood.

Transparency is key for HAGS. Our materials come from various suppliers, therefore the Recycled, Recyclable, and Renewable percentages are shown as the maximum possible values used in the materials. As we source more sustainable materials, these numbers will change.

*We use REDUXA, a high-quality, certified **low-carbon aluminum**, produced using renewable energy (mainly hydro and wind power). Its carbon footprint is **max 4.0 kg CO₂ per 1 kg of aluminum**, which is about one-quarter of the global average (approx. 16 kg CO₂ per 1 kg). It is produced using clean energy and modern, energy-efficient technologies.
