Teak Red/HDG

The HAGS Birka Bench without backrest combines sleek design and lasting durability, crafted with sturdy steel plate legs and a straightforward form that complements both modern and traditional settings. This versatile bench promotes social interaction and relaxation, whether placed along walkways, in squares, or near entrances. Optional connecting plates allow for creative configurations in rows or angles, enhancing usability for community gatherings. The available armrest option provides reliable support for easy standing, making it accessible and comfortable for all. The Birka series is a testament to quality and functional design by Jan Wickelgren. This variant is freestanding, and teak red with galvanized legs.

Recycled: Made from materials that have been processed and reused instead of discarded.

Recyclable: Can be collected, processed, and turned into new products instead of becoming waste.

Renewable: Comes from natural sources that can replenish over time such as sustainably harvested wood.

Transparency is key for HAGS. Our materials come from various suppliers, therefore the Recycled, Recyclable, and Renewable percentages are shown as the maximum possible values used in the materials. As we source more sustainable materials, these numbers will change.

*We use REDUXA, a high-quality, certified **low-carbon aluminum**, produced using renewable energy (mainly hydro and wind power). Its carbon footprint is **max 4.0 kg CO₂ per 1 kg of aluminum**, which is about one-quarter of the global average (approx. 16 kg CO₂ per 1 kg). It is produced using clean energy and modern, energy-efficient technologies.
