The Table Birka is a durable outdoor furniture solution, perfect for enhancing community spaces with its versatile design. Made with a robust steel frame, it offers long lasting performance in both modern and traditional settings. Its straightforward style ensures seamless integration into parks, courtyards, and other shared outdoor areas. Optional linking plates allow for flexible arrangements, enabling creative configurations such as rows or angled setups to suit any space. Designed by Jan Wickelgren for HAGS. This variant is freestanding, made with hardwood with a galvanized metal frame.

Recycled: Made from materials that have been processed and reused instead of discarded.

Recyclable: Can be collected, processed, and turned into new products instead of becoming waste.

Renewable: Comes from natural sources that can replenish over time such as sustainably harvested wood.

Transparency is key for HAGS. Our materials come from various suppliers, therefore the Recycled, Recyclable, and Renewable percentages are shown as the maximum possible values used in the materials. As we source more sustainable materials, these numbers will change.

*We use REDUXA, a high-quality, certified **low-carbon aluminum**, produced using renewable energy (mainly hydro and wind power). Its carbon footprint is **max 4.0 kg CO₂ per 1 kg of aluminum**, which is about one-quarter of the global average (approx. 16 kg CO₂ per 1 kg). It is produced using clean energy and modern, energy-efficient technologies.
