Black/Galvanised
Straight Tin Roof

The Stella Bicycle Shelter is a versatile and stylish storage solution that complements both classic and modern environments. Created with black Nordic Pine timber slats, it seamlessly blends into various settings. The slats can be painted in any custom color to echo the surrounding architecture. Available with a straight or vaulted roof made from corrugated tin metal or plastic, Stella accommodates up to twelve bicycles and can be expanded with extension kits to meet larger needs. We recommend adding 2 Bicycle Rack Geminis (8003537) to fit 12 bikes. Optional features include lockable gates, and bike racks, making Stella ideal not only for bike storage but also as a stroller park or waste sorting station. Designed by Janne Wickelgren for HAGS. This variant features a straight tin roof.

Recycled: Made from materials that have been processed and reused instead of discarded.

Recyclable: Can be collected, processed, and turned into new products instead of becoming waste.

Renewable: Comes from natural sources that can replenish over time such as sustainably harvested wood.

Transparency is key for HAGS. Our materials come from various suppliers, therefore the Recycled, Recyclable, and Renewable percentages are shown as the maximum possible values used in the materials. As we source more sustainable materials, these numbers will change.
