Bench Curved 90° Sofiero Hardwood

8097638

Galvanised
Hardwood/Galvanised

The Sofiero 90° Curved Bench offers a modular seating solution that allows for endless configuration possibilities. Use four benches to form a complete circular seat with an inner diameter of Ø1400 mm, perfect for surrounding trees or creating focal points. Alternatively, arrange the benches in custom layouts with 90° curves to fit your unique space. Made from durable materials, this bench combines style and functionality, making it ideal for parks, gardens, and public areas. The Sofiero 90° Curved Bench brings flexibility and a modern look to any outdoor environment. Designed by Jan Wickelgren for HAGS. This variant has cast in place anchoring, made with hardwood, and has a galvanized metal frame.

Recycled: Made from materials that have been processed and reused instead of discarded.

Recyclable: Can be collected, processed, and turned into new products instead of becoming waste.

Renewable: Comes from natural sources that can replenish over time such as sustainably harvested wood.

Transparency is key for HAGS. Our materials come from various suppliers, therefore the Recycled, Recyclable, and Renewable percentages are shown as the maximum possible values used in the materials. As we source more sustainable materials, these numbers will change.

*We use REDUXA, a high-quality, certified **low-carbon aluminum**, produced using renewable energy (mainly hydro and wind power). Its carbon footprint is **max 4.0 kg CO₂ per 1 kg of aluminum**, which is about one-quarter of the global average (approx. 16 kg CO₂ per 1 kg). It is produced using clean energy and modern, energy-efficient technologies.
