

Litter bin for existing pole-mounted installation consisting of a welded structure in 1 mm thick AISI304 stainless steel sheet on which a door is hinged to accommodate dog waste bags (not included). The waste disposal hole is fitted with a tilting lid fixed so that it remains closed before and after use. Inside, a folded 2 mm thick steel ring with \varnothing 6 mm elastic cord holds the bag in place. The door is locked with the supplied triangular key.

All metal parts are coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

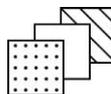

Installation on existing pole with metal ties (not included).
