

BOJON S

BOJON D

BOJON A

Chaise longue in hardwood or thermo-treated pine sect. 60x32 mm with sides in 5mm thick steel sheet and supports in solid round steel Ø 20 mm. Available in single, double or armchair versions. All metal parts are galvanised and coated with thermosetting polyester powder. The hardwood is treated with water-based pigmented impregnation, while thermo-treated pine is supplied not impregnated (impregnation available as an option). All fixings are in AISI304 stainless steel. Prepared with holes Ø 10 mm for ground fixing with mechanical dowels (not included).
