

Self-supporting circular litter bin with base plate, plinth and lid in 4 mm thick sheet steel. The cylindrical body with reinforced front door is made of 15/10 mm thick sheet steel and is fitted with a triangular key lock and a suitable slot for waste insertion. The litter bin can be supplied complete with a sheet metal ashtray with a central stainless steel disc for extinguishing cigarettes and an internal containment drawer with operator-operated emptying after opening the door. Alternatively, the version with sandbox and central stainless steel disc for extinguishing cigarettes and internal storage drawer is available. A semi-circular wall-mounted version is also available.

All metal parts are galvanized and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

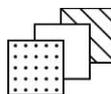

Prepared with holes \varnothing 11mm for ground fixing with mechanical dowels (not included).
