

Four-part waste bin for separate collection, with concrete base, central support in square tube 100x100x2, external truncated cone structure in 2 mm thick steel sheet and independent opening lids in cast aluminium. The version with integrated ashtray has a removable inner bin in 80x80x2 tube and stainless steel cigarette extinguishing plate. Inside the litter bin there are always four movable rings made of 2 mm thick steel sheet with elastic cord ashtraps.

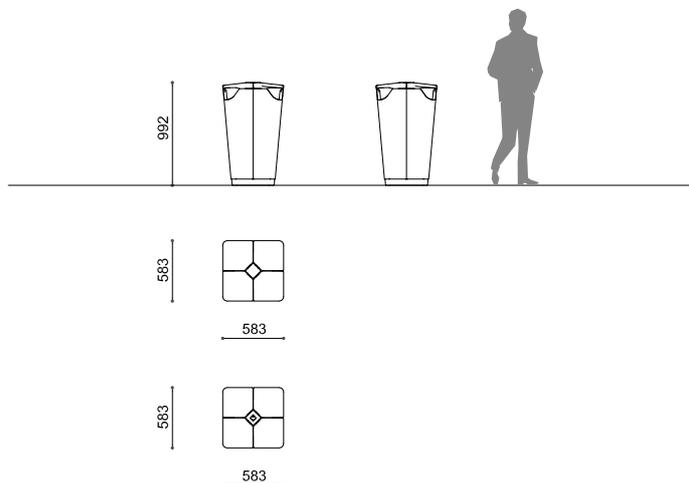

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

On request, the litter bin can be supplied with customised graphics.

Preparation with holes Ø 20 mm for ground fixing with mechanical mechanical dowels (not included) or simple ground fixing.
