

Modular litter bin, which can be used for separate waste collection, consisting of a welded frame made of 1 mm thick steel sheet with a hole for the waste to be deposited, onto which the 3 mm thick steel sheet swing lid is fixed. Inside, a special round bag holder Ø 8 mm holds the bag in place. The lid is closed by means of a snap lock with the triangular key supplied. All metal parts are galvanized and coated with thermosetting polyester powder. All fixings are in AISI304 stainless steel. Prepared with holes Ø 11 mm for ground fixing with dowels (not included).
