

Circular litter bin with concrete base. The cylindrical body is made of 3 mm thick sheet steel, with reinforced front door, and it is available in a version with geometric laser decoration or without decoration.

The rain cover lid, made of 5 mm thick sheet steel, can be supplied with or without a stainless steel ashtray.

The litter bin is equipped with two holes, opposite each other, and a bag holder ring with elastic inside.

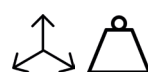

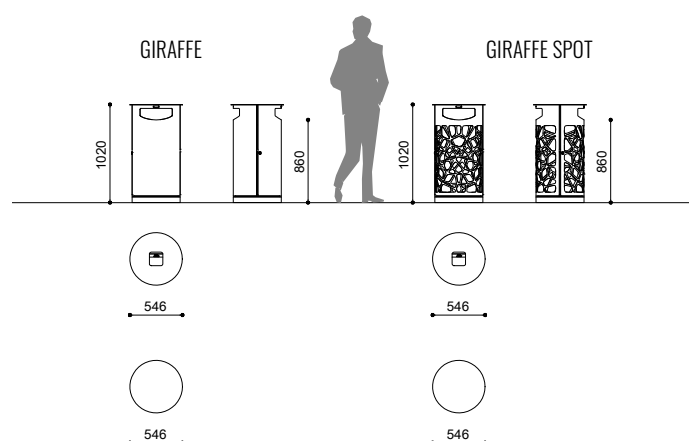

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

The concrete base makes the litter bin freestanding.

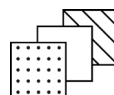

If it is to be fixed to the ground, the base is provided with a Ø 15 mm hole for fixing to the ground with a mechanical dowel (not included).
