

Pedestrian bollard made of galvanised tubular steel in three sizes (Ø 219, 152 or 102 mm) with a 3 mm thick curved steel plate end element. All metal parts are galvanised and coated with thermosetting polyester powder. Prepared with holes Ø 12 mm for ground fixing through mechanical dowels (not included) or for ingrounding.

technical data

	Ø 219 mm H 600 mm (+ 200 mm)	11 kg
	Ø 320 mm H 600 mm	11 kg
	Ø 152 mm H 1000 mm (+ 200 mm)	12 kg
	Ø 220 mm H 1000 mm	12 kg
	Ø 102 mm H 1000 mm (+ 200 mm)	8 kg
	Ø 160 mm H 1000 mm	8 kg

Galvanised and coated steel
