

Square-shaped tree grid, available in three sizes, made of 5 mm thick steel sheet with straight and interlaced line decorations, with suitable perimeter and internal reinforcements in 30x4 mm plate. For each version, the corresponding galvanised L-shaped steel profile counter-frame with brackets for cementing can be requested. All metal parts are galvanised and coated with thermosetting polyester powder, with the exception of the counter-frame. All fixings are in AISI304 stainless steel. Installation by cementing the counter-frame then simply positioning the grid inside.

technical data

990x990 mm	Ø 500 mm	28 kg
1190x1190 mm	Ø 500 mm	40 kg
1440x1440 mm	Ø 800 mm	50 kg

H 35 mm

Galvanized and powder coated steel

Installation by cementing the counter-frame then simply positioning the grid inside

Counter-frame (necessary complement)
