

Display board available in two formats: single-sided, double-sided and wall-mounted. The support structure, if present, is in tubular steel 100x40x2 mm with a base plate in 7 mm thick steel sheet. The display panel is composed of an extruded aluminium perimeter frame in two different sections with die-cast aluminium corners and a 1.5 mm thick steel plate base. The doors are made of extruded aluminium with 5 mm thick tempered glass panes and single cipher side locks. The planned display formats are (base x height) 800x1000 mm and 1400x1000 mm. All metal parts are galvanised and coated with thermosetting polyester powder. All fixings are in AISI304 stainless steel. Prepared with holes Ø 14 mm for mechanical mechanical dowels (not included).

technical data

	1712x180 mm H 2200 mm 1400x1000 mm	90 kg
	1517x101 mm H 1184 mm 1400x1000 mm	68 kg
	1112x180 mm H 2200 mm 800x1000 mm	53 kg
	917x101 mm H 1184 mm 800x1000 mm	31 kg

Galvanized and powder coated steel

Prepared with holes Ø 14 mm for mechanical mechanical dowels (not included)
