

Modular single or double-sided bike rack consisting of a tubular steel 80x80x3 mm bar with shaped brackets in 5 mm thick sheet steel and stainless steel handlebar supports with protective thermosetting PVC coating. The structure is mechanically fastened, with bolts and anti-theft tear-off nuts, to two 80x80x3 mm steel tubular supports with 7 mm thick steel sheet base plate and PVC top cap. The single-sided module is designed to accommodate up to four bicycles, while the double-sided module accommodates up to eight.

All metal parts are galvanized and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

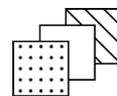

Prepared with holes Ø 14 mm for ground fixing with mechanical mechanical dowels (not included).
