

Table tennis table consisting of a pair of supports made of 40x2 mm round steel tubing folded into a V shape and 60x40x2 mm rectangular steel tubing onto which the two tops making up the playing field are fixed. The latter are made of 1 mm thick folded steel sheet hot-glued to a 15 mm thick marine plywood panel with special two-component glue coated RAL 5010 with RAL 9010 court lines. The laser-decorated net is made of 2 mm thick steel sheet folded and fixed to the playing surfaces.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

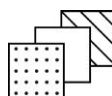

Free standing with M10 adjustable feet for levelling prepared with Ø 11 mm hole for mechanical mechanical dowels (not included).
