

Bench-table consisting of two seats and a table top made of hardwood or Thermo-treated pine slats, section 130x43 mm with rounded corners. The supports are made of shaped and folded 5 mm-thick sheet steel. To strengthen the structure, 2 mm thick sheet metal ribs are attached to the underside of the slats.

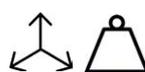

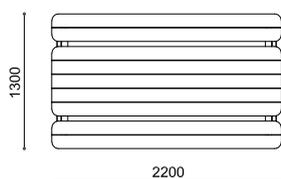

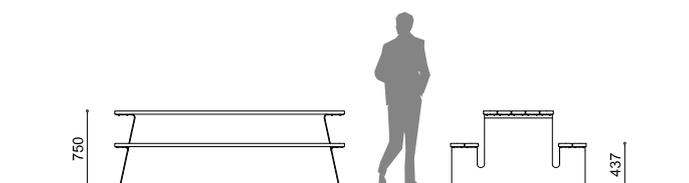

All metal parts are galvanised and coated with thermosetting polyester powder.

The hardwood is treated with water-based pigmented impregnation, while thermo-treated pine is supplied not impregnated (impregnation available as an option).

All fixings are in AISI304 stainless steel.

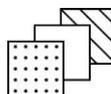

Prepared with holes \varnothing 12 mm for ground fixing with mechanical dowels (not included).
